

**IT'S OKAY THAT SHE STOLE YOUR HEART.
SHE'S THE REASON WE WANT TO TAKE CARE OF IT.**

SAINT JOSEPH'S HOSPITAL IS, WITHOUT QUESTION, THE LEADER IN CARDIAC CARE IN THE REGION.

It's a distinction we've worked for over 125 years to achieve. Our determination has resulted in Saint Joseph's being home to one of only two adult heart transplants centers in the state. We also have the only women's heart program in Atlanta. And we perform the largest number of cardiac robotic surgeries in the southeast.

With so many special people in your life, make sure your heart is in the right place.
